Seeds on a Tray
ORDERED BY
juncos, sparrows, towhees & doves
LOW TRAY

Orange Halves
ORDERED BY
Baltimore Orioles
SPRING SPECIAL

Mealworms
ORDERED BY
bluebirds and many more
PROTEIN POWER

Café Rules

1. **Keep it clean**
   Wash feeders often. Fruit and sugar water spoil fast.

2. **Suet is a winter treat**
   Raw suet goes bad when it's warm, so serve it only in winter.

3. **No leftovers, no bacon**
   They can make birds sick and bring rats and raccoons to the yard.

4. **Jelly? Just a spoonful**
   It's very sticky – small birds can get stuck in it.

✂ Two cards: cut on the dashed lines. Keep one by the sink and give one to a friend!

✦ THE FEEDER CAFÉ · OPEN ALL YEAR ✦

Chef's Special

Sugar Water

served to Ruby-throated & Anna's Hummingbirds

White table sugar ..... ¼ cup

Water ..... 1 cup

HOW IT'S SERVED (a grown-up helps!)

1. Stir the sugar into the water until it disappears.
2. Pour into a clean hummingbird feeder.
3. Change it every 2–3 days, every day when it's very hot.
4. Scrub the feeder with a bottlebrush each time.

NO red food coloring NO honey

Filled on _____ _____ _____ _____

Big batch for the fridge? Use boiling water (grown-ups only). · Source: All About Birds, Cornell Lab · Glowpeak's Backyard Birds
